

Brava Cool Roof Products

TITLE 24 **APPROVED**

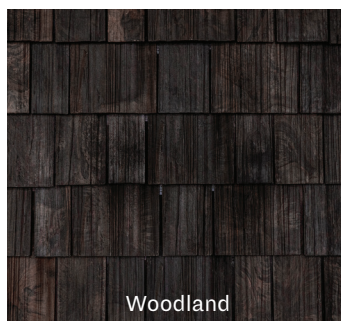

Cool Roof products are products that have enhanced solar reflectance and thermal emittance properties. These roofs help to keep your building cooler and increase efficiency from your HVAC system by reflecting sunlight away from a structure and preventing heat from penetrating the building below. Our products meet the requirements of both ENERGY STAR® and Title 24 which is critical for California residents.

Terra Cotta

French Clay

Woodland

Driftwood (Shake)

Class 4 hail rating

Class A fire rating

Made in USA

The printed colors shown may vary from actual colors. Before making a final selection, be sure to review actual material samples and roof installations. Please contact your salesperson for further assistance.

To achieve certain fire and wind ratings, special installation instructions may be required. Please reference Brava Roof Tile installation manuals at www.BravaRoofTile.com for more details.
